Today is another milestone in the history of our Club, with the introduction of our first ever Official Programme. Many thanks to the people who have made this possible, and we at the Club hope that we can celebrate the beginning of a new programme by getting promotion this season. We have a very young team, who have given us a good start, and today we look forward to playing National Division Club, Haverfordwest with the prospect of the winning team going into the hat for the Third Round, with top clubs Cardiff, Newport, Swansea and Wrexham.
